The demo is very misleading, this game is actually extremely hard and frustrating. The lack of checkpoints (Especially during later levels, like Chrono Clock) makes me want to pull my hair out and cry in the corner.. Very cool!  
These are the only women i have ever interacted with my whole life!

10/10 would stop being a virgin again.. Well, I won this in a giveaway and I'd like to say a few things:

Pro's

This game is very good currently. It's new aswell.  
It has a very good AI and the features of this game are amazing.  
I like the way the creator/developer has used artistic kind of features to make this.

Overall: great game :D get it! very good!. A thoroughly charming puzzle-based platformer, well worth the £3.99 asking price..  
Want to upset a D&D fan gift them this game. Will be the greatest gift of disappointment.. Honestly, I feel Serious Sam 2 is the black sheep of the family. It is so underrated and disliked by many.

Yes it has silly enemies and a random story line. But it is fun. With the ability to install mods, the game also has high replay value.

In the end, out of all the Serious Sam titles, I always find myself going back to this one. Be Serious and give this a try.. OMG I JUST DANCED 10 MINUTES STRAIGHT!

THE PUMPING EDM MUSIC OF THE SECOND LEVEL IS TOO AWESOME!

CAAAAN'T STOOOOOP, WOOOON'T STOOOOOOP!

BEST DANCE MUSIC EVER IN A NON-RYTHM GAME!

SUCH POLISH, MUCH WOW!

You know you've got a polished game, when DS4 controller is supported and has its button symbols in the game.

I completed all levels and got all medals, also the plus variation of Time and Deus medal and I can say that many levels are pretty challenging. For me speedrunning the levels is the most fun. There are also some nice achievements where you need to not touch the floor or avoid all pickups or not get detected and such. For hardcore gamers there is even more challenging stuff after you complete the game. With this wide spectrum of challenges this game is not only a platformer but also a puzzle game, racing game, stealth game and all of its own.

All the game issues still exist for so many years and koei never do something, so what can we do?. This be dope with multiplayer.. Do it for the zombies.

I literally only play this game for the zombies, I play almost only on community created maps and they are just great. I want to buy the DLC zombie maps but \$50 is too hefty of a price for I think only 4 or 5 maps. There is a new map pack coming for just zombies which I do plan on getting but that is so I do not have to keep playing the old maps on my PS3 and so I can do split screen on them. Yes I still play split screen zombies and it's great when your friend doesn't have a PC because some people just don't get it and he's one of them lol.

Anyway I recommend this game for the zombies, if you can find a deal elsewhere or if the game is on sale I really recommend it.. Ive played a decent amount of these games in the past. Minimal learning curve, configuration screen is somewhat annoying when you hook up a controller. Just lacks as a whole.. Never had a server available, game is a rip-off beware.
