ayy, thats pretty gud.... The characters arent over powered but are pretty good on their own, their support are uniq and can provide useful advantage but not broken or op when compared to other existing jutsus for support in the game.

Only Tayuyas and Sakon/Ukon support is uniq.

Tayuya: uses 3 spheres that will float for a descent period of time and slowly track down your opponent and cause a pretty short stun on contact on each one of those spheres.

Sakon/Ukon: rises a wall that will literally block everything you throw at it; idk if its stil happening but, if you throw a paper bomb at it; even after the wall dissapeare, the paper bloom stay floating where the wall was, and will explode on contact XD.

But lets talk about the impotant part of this DLC...BIKINIS!, do I need to say more?.. Some good Characters, with new little Mechanics to use. Not overpowered at all, and really fun.

Recommended.. Characters are fun and have a cool linked Ultimate Technique. I very much recomend this dlc. They are some of my favorite character is the anime and in the game.. The only dlc worth buying that's included in the season pass. Ironically it's the cheapest, but you get 4 unique part 1 characters,the creation of akatsuki costumes for Pain, Konan, and Nagato, and the bikini costumes for Sakura, Ino, Hinata, and Tsunade. You also get some other small stuff like more zabuza/ninja swordsmen finishers and voice lines.. anime tiddies 10/10 dlc would play tsunade again. Good value for unlock the sound four and costumes. Best DLC Yet

Hey thats pretty good. I just love this dlc and i think all of you know why. Sadly, all the awesome new team ultimates have fps drops, even with a super good pc, fix dat\u2665\u2665\u2665\u2665\u2665please kimundi! Otherwise, the dlc is really good, and the sound fours are very unique, each of them having his way to play. its so good!~!!!!. this game is great but i wondering is hokage kakashi costume gonna be on dlc, plus is boruto and sarada are gonna be in dlc as well?
